REDS DEFEATED!

The United States Troops Have Another Battle With the Indians at Wounded Knee Creek.

CAMP NEAR WOUNDED KNEE CREEK, S. D., Jan. 6.—Another engagement took place at this point yesterday morning. As a number of citizens with supplies were known to be coming on the road from Rapid City to this point, it was thought best to send out a detachment to protect them. So thirty men were picked and immediately started down the road. They had not gone over ten miles, when they discovered the wagons, thirteen in number, drawn up in the form of a square, and being attacked by a band of about fifty Indians. The detachment put their horses to a full gallop, the Indians, seeing which, withdrew to an adjoining hill. The detachment now joined the teamsters, who numbered only nineteen. Sacks of grain, bundles and boxes were thrown up in front of the besieged as breastworks. The Indians, noticing this, immediately returned and commenced the attack, circling about the wagons, but keeping at a distance of 800 yards. As a result, the shots from their Winchesters were not very effective, often falling short of the mark. The carbines of the soldiers were used with more effect, a number of Indians being seen to fall from their horses. Meantime their number was augmented until they numbered some 100 warriors in all, besides some they had posted off on the adjoining hills. One soldier, during the commencement of the fight, while arranging the breastworks, was shot in the shoulder, but not seriously wounded. A soldier was detailed to return to camp and report that the detachment was besieged by the Indians, and that they were attacking the wagon train. He selected a fast horse and made a break at an opportune moment, the attention of the Indians being attracted to movements made on the other side. As soon as the ruse was seen, about twenty Indians gave chase to Private Collin and fired shot after shot at him, but as he had a fast horse, he soon distanced them. They then returned with the others to the attack. Three more Indians were seen to fall from their horses and were picked up and carried away by their companions. Four cavalry horses were shot and killed, as were a large number of Indian ponies. While the large body of Indians were being engaged by the majority of the soldiers and citizens, a few Indians scattered about, dismounted, and getting as close as possible, began firing into the horses and trying to stampede them. This they nearly succeeded in doing in several instances, and had not some soldiers been guarding and holding the horses, they would undoubtedly have succeeded in attaining their object. By this time things were getting pretty hot for the besieged party and shots were flying as thick as hail stones, and it was hard to distinguish the Indians through the smoke. The citizens had been hemmed in for six hours and the soldiers about three hours. A little before 2 p. m. a commotion was seen among the Indians, and they gradually retreated when it was seen that troops were coming at full charge to the rescue. Every one gave three resounding cheers as the troops rode up, the Indians scattering in all directions, and troop F giving chase. They were pursued till near night fall when the chase was abandoned, the wagon train was started, every one returning to camp bringing the dead Indians and some ponies with them.

PINE RIDGE AGENCY, Jan. 6.—Jack Red Cloud and a small party of friendlies came in from the hostile camp yesterday afternoon. They asked that the Indians now at the agency be sent out to help the Indians who fled from the agency on the night of the battle of Wounded Knee, to get away from the hostiles. The authorities look upon the request with distrust, and reserve their decision.

The general situation here is increasing in seriousness. Short Bull, the leading hostile chief, who has distinguished himself all along during this trouble by never for a moment considering any of the overtures looking to an amicable settlement, but who has steadily stuck to his lacre in the Bad Lands, and now assumed command of the great body of hostiles, Sunday night told the government spies that he would take his agency if it cost every warrior he had. Half breeds have been informed by friends and relatives, whom some of them have among the hostiles, that they had better immediately move their families a long distance from the agency, as a great raid and massacre was certain. The half breeds are showing the agency people what they think of this information by getting their families out of here with a rush. The government herder, John Dwyer, and Issue Clerk Pugh have both discovered through their Indian friends of years standing that a raid and massacre has been fully decided upon and maturely planned. General Miles is thoroughly conversant with all these facts and himself says that the situation is exceedingly critical. There are less than six hundred soldiers here now all told.

FORT TOTTEN, N. D., Jan. 6.—Rumors are current here that the 3,500 Indians on the Tuttle reservation are liable at any moment to inaugurate a massacre of settlers living along the North Dakota border. This band has been unruly for some time on account of their half starved condition and have several times given trouble. The troops here are totally inadequate to protect settlers should an uprising occur. Settlers are much worried over the situation and have sent a protest to Washington against leaving this band of 3,500 savages to menace the people.

ANOTHER BATTLE IMMINENT.

PINE RIDGE AGENCY, Jan. 7.—Everything now points to a battle and a disastrous one. However, it will not be between the troops and the hostiles, but between the hostiles and friendlies, who desire to leave the hostile camp and come into the agency. Red Cloud has signified his desire to return to the agency, but he is nearly blind and no one will volunteer to lead him in for the Brules threaten death to the first person who attempts to desert the hostile band. This is causing trouble.

The older Indians want to come in, but the young bucks insist on fighting However, the cajoleries of medicine men are fast losing strength. Their superstition about the ghost shirt being bullet proof has caused the older Indians to think that peace is more desirable than war. The cordon of troops is drawing tighter around the hostiles.

The Hostiles are on guard night and day. Fires are being burned at night to prevent any one from escaping from their camp, more especially Red Cloud's band.

General Miles has sent a peace commission to the hostiles. If they still refuse to come in their camp will be bombarded. Machine and shell guns are being placed on all sides of the camp, and at the command a murderous fire of hot shell and cannister can be showered into the Indian camp. This means utter annihilation to the Indians if the order comes. General Miles is fast becoming impatient, and if the Indians do not obey this last order, a bloody battle of extermination will then be begun.

AMENDS HIS RETURNS.

Which Gives the Prohibitionists Ten More Votes.

CONCORD, N. H., Jan. 6.—The supreme court last night issued a mandamus directing the town clerk of Rochester, to amend his returns of votes given in that town for senator. The effect of this order will be that the governor and council will recanvass the vote of the Somersworth district to-morrow and and find the prohibition vote of Rochester to be 34 instead of 44 as counted. This gives the democratic candidate two majority and he will be given the certificate. This will give the democrats ten member in the senate to thirteen for the republicans, with no choice in one district. The legislative caucusses of both parties will be held tomorrow night, when the parties will select their candidates for the speakership and the presidency of the senate. It is generally thought the supreme court will render its opinion in the Clerk Jewitt case to-day or early Wednesday.

NOMINATED CANDIDATES.

The Caucuses of the Pennsylvania Legislature.

HARRISBURG, Pa., Jan. 6.—At a caucus of republican members of the house last night, Caleb E. Thompson, of Warren county, was nominated for speaker by acclammation; John Morrison, of Allegheny, was chosen for chief clerk, and Chas. W. Voorhees, of Philadelphia, for resident clerk. A resolution favoring the speedy passage of the federal election bill was unanimously adopted by the caucus. The democrats of the house also met in caucus last night, and chose George W. Skinner, of Fulton county, for speaker; Peter J. Hughes, of Philadelphia, for chief clerk. The further nominations in the gift of the house were referred to a committee of five. It was also agreed to meet on the evening of January 19 for the purpose of nominating a candidate for United States senator.

MINISTER MIZNER.

Receives Letters Threatening His Life---Leaves for San Francisco.

NEW YORK, Jan. 6.—A special from La Libertad, Salvador, says Minister Mizner will leave here to-day for San Francisco. It is asserted that he received numerous letters threatening his life, and that he solicited a body guard from the United States to accompany him to the steamer. Salvador, Honduras, Nicaraguay and Costa Rica, have combined in asking the Washington government to send them separate ministers and will withhold their recognition of Minister Pacheco until a definite answer has been received.

Belgium's Trade.

BRUSSELS, Jan. 6.—The trade returns for 1889 make a very favorable exhibit of the condition of affairs in Belgium. A total increase of 4 per cent. in exports for that period is shown. Exports to the United States decreased 17 per cent., but to other countries there was an increase of 16 per cent.

SKIRMISH WITH SCOTS.

The Glasgow Police Have a Hand-to-Hand Battle With the Striking Railroad Employes.

GLASGOW, Jan. 6.—The evictions of railroad strikers from the quarters occupied by them as employes of companies promises to be the cause of further and serious trouble. Notwithstanding the fact that a largely increased police and military force this morning confronted the rioters at Coat Bridge, a great iron center about nine miles from this place, rioting was resumed by the now most desperate men.

The troubles of the day were begun by the mob making a fierce onslaught upon the dormitory in which are sheltered the non-union men. The assault opened with a sharp fusilade with stones which was followed by a forward rush of the mob which made frantic efforts to force an entrance to the building. Sharp hand-to-hand fighting then took place between the police and the rioters, the officers vigorously plying their batons, while their assailants fiercely pelted them with stones and beat them with cungels and their naked fists.

At times the policemen would, after extraordinary efforts, succeed in forcing the mob to move sullenly backward, only, however, to again pull itself together and dash forward, cursing and fighting, upon the plucky officers. At the moment of cabling this dispatch several of the policemen and a number of the rioters have been injured.

All the miners in the Rotherwell district suspended work last evening and were largely responsible for the riots. There are 20,000 people about the streets and suburbs at an early hour this morning, and great ill feeling and and excitement prevails.

OUTWITTED BY A SHERIFF.

A Mob Wanted to Deal Out Justice to a Murderer.

GUTHRIE, Oklahoma, Jan. 6.—Representative Terrell, who killed Mr. Embre, was rushed out of the city and taken south yesterday. When the south bound freight train pulled out yesterday afternoon from the station, a large number of men were at the station bent on securing the prisoner and lynching him. But they were outwitted by the sheriff. South of here an obstruction had been placed on the track. The train stopped. The sheriff boarded it with his prisoner. The obstruction was removed and the train proceeded south. The mob is still wondering what became of Terrel.

GO TO PRISON.

MACON, Ga., Jan. 6—The trial of six citizens in Dodge and Telfair counties for conspiracy and murder in the killing of John C. Forsythe at Normandale, in August last, was ended yesternay, when the jury brought in a verdict finding all but one of the defendants guilty. Luther A. Hall, Charles Clements, and Sheriff Wright Lancaster, were found guilty of conspiracy and murder, with a recommendation to mercy; John K. Lancaster and Louis Knight were found guilty of murder only, and James Moore was found not guilty. Under the law the three first named will receive life sentences.

MAY GET LEFT.

Detroit Hustling for Money for the Next G. A. R. Encampment.

LANSING, Mich., Jan. 6.—The fate of the proposed national G. A. R. encampment in Detroit next summer, is trembling in the balance. It was proposed to raise $25,000 for the encampment by private subscription, a like sum to be raised by the city of Detroit, and the legislature to appropriate $50,000 to make up the total $100,000 required. The Detroiters have come to a dead standstill in the work. Gov. Winans announced that he was opposed to a legislative appropriation on the ground that it would be unconstitutional to devote public money to private use. A committee hurried out from Detroit Saturday to see the governor on the subject. Last night a second committee of Detroiters waited upon the governor. It became very evident that he could not be induced to change his position. It is plainly said that if the legislature does not appropriate the $50,000 required, the encampment cannot be held.

The Japanese Murderer.

NEW YORK, Jan. 6.—Roger M. Sherman, counsel for Jugigo the Japanese murderer, who is to be electrocuted during the week beginning on the 12th instant at Sing Sing, applied this morning to Judge Lacomb, in the circuit court for a habeas corpus, pending the argument for a stay. Judge Lacomb denied the motion, but signified his willingness to grant an appeal to the supreme court. The appeal will probably be formally granted this afternoon.

Sent to Ireland.

BOSTON, Jan. 6.—Hon. P. A. Collins and T. R. Fitz, trustees of the tenants defense fund yesterday cabled $6,600 through the Maverick National bank to Messrs. Webb and Kenny, the treasurers in Ireland.

Died Abroad.

BRUSSELS, Jan. 6.—The wife of the American minister, Mr. Terrell, died yesterday of rheumatic fever after an illness of nine weeks. Although she had been here only eighteen months, she had gained hosts of friends and was a popular hostess. Her loss will be sincerely deplored in the diplomatic world and throughout the entire community.

LEGISLATIVE MUDDLE.

Montana's Trouble of Last Year Renewed.

HELENA, Montana, Jan. 6—Yesterday was the date set for the meeting of the state legislature, and three bodies of men met in as many different places and organized three brances of the Montana legislature. In the senate it was all easy sailing, as the body stands ten democrats and six republicans. But the trouble over the ten members from Silver Bow county remains just as it did last year. Twenty-nine republicans met in the Electric light hall, where State Auditor Kinney called the roll, in which he included the five republican contestants from Silver Bow county. All the democratic members of the house, including the five democratic claimants from Silver Bow county, met in another hall and organized by electing Harry Courly speaker and a full list of officers. The republican house also elected officers. Just after noon the committee from the democratic house waited on the senate and governor with the information that the house of representatives had organized and were ready for business. Governor Toole and the senate each recognized this organization. This afternoon the republican house sent a message to the senate that it was organized and ready for business. This message, by a vote of 10 to 6, was rejected, and the clerk was directed to make no note of it on his minutes.

As the matter stands now the deadlock is as complete as it was last year, when not a law was passed. As the democrats have the senate and governor this year, where last year the senate was a tie, they have the best of it, but if the matter goes to the supreme court, as it will undoubtedly do, if that body follows the precedent set last year, it will decide in favor of the legality of the republican house. As there are no more senatorships in the balance this year there is nothing in particular to fight for and the belief is pretty general that some compromise may be made in a few days which will end the dead-lock. The governor's message will be delivered tomorrow. There was no trouble of any sort despite the prediction of the sensationalists, and both sides, while determined, were in the best of humor.

GOULD'S LAST GOBBLE.

He Has Secured Control of the Santa Fe Railroad.

CHICAGO, Jan. 6—A rumor is in circulation in connection with the affairs of the Santa Fe road which, should it prove to be well founded, will cause more surprise in railroad and financial circles than any other of the startling events with which that road has recently been connected. It is to the effect that negotiations are now in progress, and have almost been carried to the point of consumation, for the consolidation of the Santa Fe and the Missouri Pacific railroads.

It has more than once been asserted of late that Jay Gould, at the same time he secured control of the Union Pacific road, had virtually acquired ownership of the Santa Fe as well, and it has never been denied that he has recently been a large investor in that property. It is claimed by those who are in a position to know that the preliminaries have all been settled, and that the perfecting of the deal only awaits Gould's further pleasure, and is a mere matter of time and convenience.

FARMERS ON TOP.

The Alliance Elects Officers in the Nebraska Legislature.

LINCOLN, Neb., Jan. 6.—The legislature organized at noon to-day, the Alliance having a clear majority and electing temporary officers without trouble.

O. H. Piertle, secretary of the state central committee of the independent party, was elected secretary pro. tem. of the senate by a majority of one.

S. M. Elder was elected temporary speaker of the house and Eric Johnson, secretary. The temporary speaker is without education or experience and a turbulent session is confidently expected.

NEARLY WIPED OUT.

A Texas Town Visited By the Fire Fiend.

GAINESVILLE, Texas, Jan. 6.—The little town of Bolivar, ten miles southwest of here, was nearly destroyed by fire Sunday night. All the business buildings, together with the postoffice, were destroyed. The loss is estimated at $25,000, half covered by insurance. The fire was of incendiary origin.

Heavy Failure at Michigan City.

MICHIGAN CITY, Ind., Jan. 6.—L. W. Wilson & Co., lumber dealers, made an assignment. The liabilities are estimated at $150,000; assets, $50,000. The home creditors are secured; the outsider finds very little in sight.

Foreman Dead.

PITTSBURG, Jan. 6.—Michael Quinn, a foreman in the stock yards of the furnace department of Edgar Thomson's steel works at Braddock, died this morning in the Mercy hospital, this city.

CONGRESS.

The House Will Ask for the Correspondence Concerning the Killing of Sitting Bull.

WASHINGTON, Jan. 6—No quorum of the senate appeared until 10.45, and then only after a call of the senate had been ordered. There were but six senators present when the body was called to order at 10 o'clock. After a quorum had been secured and the journal read, some routine business was transacted and further consideration of the financial bill proceeded with.

The house committee on Indian affairs will report favorably the resolution calling for the correspondence about the killing of Sitting Bull.

Numerous telegrams are passing between General Miles and the war department officials, but few of them are made public. Since the suspension of Colonel Forsythe in the face of the enemy many telegrams touching that case have passed between Secretary Proctor, General Schofield and General Miles. The telegrams are not made public, but it is known that an important telegram from General Miles about the Forsythe case was laid before the cabinet to-day by Secretary Proctor.

Its contents could not be positively ascertained, but army officials who are in a position to know, intimate quietly that Genral Miles does not endorse the suspension of Colonel Forsythe, and in suspending him, he simply carried out the orders from the White House.

EMMA ABBOTT'S WEALTH.

The Dead Prima Donna Was Worth Over $1,000,000.

CHICAGO, Jan. 6.—Mrs. Abbott, mother of the late Emma Abbott, together with a younger brother and sister, reside in this city. Her brother says of her: "There are very few men who are as capable in the management of business interests as my sister. She said very little about her business affairs and I am not able to say how much she was worth. However, I know that her property is worth fully $1,000,000, possibly more than that."

Mr. Abbott states that it was his sister's intention to build a handsome home for the family here in Chicago, and at the time of her death she was discussing a suitable location. Her plan was to place the family in this home, and then take a trip through Europe with her company, which was to occupy three years.

IN COURT.

The South Chicago Bank Robbers Arraigned.

CHICAGO, Jan. 6—The South Chicago robbers were arraigned before Justice Robbins, in Hyde Park, this morning. Corbett, Featherstone and Bennett waived examination, and were held to the criminal court, the first two in $10,000 bail each, and the latter in $15,000. Mullen's lawyer asked for a continuance, which was granted, and the alleged arch conspirator in the robbery will be examined next Saturday. Bennett's bond is heavier than the others because he shot and wounded a police office.

Crushed to Death.

TOLEDO, Jan. 6.—Shortly after 6 o'clock last evening, as a big mogul engine was backing down the Lake track near this city it ran into a train of flats. The tank of the engine was lifted up and pushed against the boiler-head, pinning three men who were standing in the cab. Joseph Sawyer and Terrence Kilbride, helpers, were almost instantly killed, and Michael Kirschner, a pony conductor, severely crushed. The engineer and fireman were on the seats of the cab and escaped serious injury. A blinding snow storm prevented Engineer John Corbett from seeing the flats until it was too late to avert the accident. Both Sawyer and Kilbride leave families. Kirschner will recover.

Foreign.

PRAGUE, Jan. 6.—A letter was yesterday read in the Diet from the Count of Thun, governor of Bohemia, which represented that the government had determined to make no further concessions to the Czechs than those contained in the compromise arranged by the conference held at Vienna last January.

LONDON, Jan. 6.—Everything points to a general election in the spring according to the program outlined in these dispatches two weeks ago. Sir Wm. Hardtyke, M. P., for Dartford, who is known to be in the confidence of Lord Salisbury's government, has advised his friends to prepare for a dissolution of parliament about Easter.

For Electioneering Purposes.

LONDON, Jan. 6.—In in interview yesterday, Sir Charles Tupper, the Canadian commissioner, said he did not believe that the naval forces of the United States were being placed in readiness to attack the vessels of foreign nations. He inclined to the belief that the utterance of American government on the Behring Sea question might have been circulated for electioneering purposes.

Next West Pointer from the Eighth.

TERRE HAUTE, Ind., Jan. 7.—The result, with the average percentage of the examinations, for the appointment to West Point for this district, is as follows: W. S. McBroom, Montgomery county, 94.2; L. G. Cavins, Sullivan, 85 1; Herbert L Jones. Vigo, 83; Howard Griest, Montgomery, 82 8; Hardy Conver, Fountain, 75 8; Wallace Wheat, Parke, 75 2; Robert F. Darby, Vermillion, 73,4; H. R. Rosencranse, Parke, 63.7; Wm. Plumb. Brazil, 55.6.

ENGLISH COURANT

Concerning the Behring Sea Difficulty.

LONDON, Jan. 6.—The St James Gazette, in referring to the Behring Sea embroglio, says it accepts the official denial, but asks why is the navy of the United States being massed in the waters of the Pacific ocean unless it is intended to make Behring Sea a Mare Clausum. The Gazette adds that officers of the American navy do not act upon rumors published in the New York Herald or the Pall Mall Gazette.

The Pall Mall Gazette says: Mr. Blaine obviously means to try more "bounce" for the sake of making political capital. The paper is, however, convinced that the American people will not support Mr. Blaine, and asserts that the matter in dispute should be submitted to arbitration.

The Globe attributes the existing friction to Blaine's bragging spread eagleism. In a view of a possible, though unlikely American display of force, the Globe says that Great Britian should at once strengthen her Pacific squadron. The article concludes by advocating the submission of the matter to arbitration.

THREE DEACONS FINED.

Made to Pay $46 Each For Throwing a Brother Out of Church.

BELLAIRE, Mich., Jan. 6.—Trouble in All Saints' church was started last Tuesday, when three deacons threw Z B. Hayes out of the church for refusing to sing, pray or speak.

They claimed that he was a back slider, and when they laid hands on him they dashed him to the ground with great force, cutting his face on the frozen ground. Hayes swore out a warrant against them for assault and battery, and the case was tried before Justice Kibby.

The trial was attended by all the church members for miles around, and so great was the crowd that adjournment was made to the town hall.

Before each session of the court brethren and sisters knelt on the floor and prayed long, loud and earnestly that the heart of the magistrate might be touched during the progress of the trial.

Justice Kibby warned the deacons who led the devotional exercises to stop, but it did no good. The trial ended this afternoon by the justice declaring all three deacons guilty, and fineing them $46 each.

Failures.

CLINTON, Ia., Jan. 6—The Mutual Guarantee fire insurance company of Clinton, made an assignment yesterday, with liabilities of $47 000, and assets which include a $50,000 guarantee, that reaches $29,200. The cause of assignment is slow collections on notes made by the company. Attorney J. H Barker, of Clinton, is assignee. All policies will be cancelled and an adjustment be made of over paid premiums.

BOSTON, Jan. 6.—Lowell Bros. & Co, produce dealers, have assigned. The liabilities of the firm are not known. Outside speculations are the supposed cause of the firm's embarassment.

Nathan Schloss, tobacco dealer, has assigned. Liabilities $40,000.

NEW YORK, Jan. 6.—Henry C. Aspinwall, dealer in tiles, grates and metals, at No. 803 Fifth avenue, made an assignment to-day. Liabilities and assets not stated.

LAREDO, Tex., Jan. 6.—A well defined rumor was current on the streets last night that the Laredo Improvement company will go into the hands of a receiver to-day. In fact, it has been decided, so it is reported, that Messrs. J. O. Nicholason and Chas. I. Yager will be appointed receivers. The estimated liabilities are $300,000, and the assets about the same amount.

Think It Was a Gas Disturbance.

ELWOOD, Ind., Jan. 6.—The residents of this town and those for many miles around are much exercised over the slight earthquake which was felt Saturday evening. The shock was felt nearly all over this county. As this place is in the natural gas region it is very generally believed that the disturbance came from natural gas. Many people believe that the tremble is the premonition of a great upheaval of the natural gas territory. Residents of the natural gas territory have not rested entirely easy since the great natural gas upheaval in Shelby county a few months ago.

Artist Dead.

URBANA, Ohio, Jan. 6.—John Cranch, aged eighty-four, died this morning. He was a celebrated portrait artist in Washington and New York. He has painted portraits of many notable persons of America. His father, William Cranch, was chief justice of the district court of Columbia for thirty years, having been appointed by his uncle President John Adams.

A Railroad Wreck.

SPOKANE FALLS, Wash., Jan. 6—A wreck occurred on the Northern Pacific. A freight train struck [illegible] No lives lost.

The point medal in curling will not be played for until Thursday afternoon.

LEGAL LORE.

The Circuit and Superior Courts Closed--Kuhns Gives a Deposition in an Ohio Case.

Judge Dawson adjourned the superior court to day until next Monday, when the January term will be convened. Both courts are now closed and an air of dullness pervades the court house.

Robbie Wamster, a lad, was arrested and arraigned before Justice France for malicious trespass. It was charged that for want of better pastime Rob poked a stick through the show window of the South Hanna street store of Charles Broeking, to the damage of the glass and contents of the window. He was fined $1 and costs, which was paid.

To day articles of stock were filed with County Recorder Thompson to incorporate the produce commission business of Charles P. Brooks and Frank E. Purcell, the former being president, and the latter secretary. The capital stock named is $5,000, held equally by both.

O. N. Heaton, assignee of the stock of Fred N. Kimball, who made an assignment yesterday, will soon begin to sell the stock for the benefit of the creditors.

Russell Wheeler and Frank E. Wheeler enter suit in the circuit court against George Kramer and George L. Muhler for $225. Morris & Barrett for the plaintiffs.

To-day Marvin Kuhns was called upon at the jail by Attorneys Thomas W. Prentiss, of Leipsic, Ohio, W. L. Shambaugh and P. L. Potter, who, on behalf of the plaintiff and defendant in the case of Hoffman vs. Ferguson, to replevin a horse, took the prisoner's deposition. Kuhns talked willingly and answered the questions promptly. The case will come up in Leipsic.

William Kaough has been appointed administrator of the estate of William Howey.

Judge Dawson decreed Perry township a judgment for $1.75 and costs against Charles E. Sterling. The controversy grew out of a difference on road work.

Elizabeth Virgil sues Laura Henell for $100 on a note. A. A. Purman is attorney.

"BILLY" MANNIX

Seems to Be in the Lead For Doorkeeper of the Senate.

The Indianapolis Sentinel says:

"Dr. J. D. Morgan, the senator from Allen county, arrived last night and is at the Grand. Mr. Morgan is a young man of more than ordinary ability. He resides at Monroeville, sixteen miles east of Fort Wayne, and especially represents the country democracy of the banner democratic county in the state. He says that there will be no opposition to the fee and salary bill from his county. The only contention will be on the time that the bill should take effect.

"To morrow you will see here a large delegation from Old Allen in behalf of William T. Mannix for doorkeeper of the senate," said he. "Allen county has not a man in the state house, and this is our only chance to get one. Mr. Mannix was postmaster of the senate in 1885, and is well qualified for the position."

"W. S. Oppenheim from Allen and Huntington is at the Bates. In the last house he was one of the leaders and was on the committee that formed the school book bill."

INTO NEW QUARTERS.

The Morton Club Goes Out and the Columbia Club Goes In.

The members of the Morton club received official notice last night that the new club room in the Odd Fellows' block would be occupied by the club on and after February 1. It was decided to purchase new furniture at a cost of $1,500, and an amendment to the bylaws was adopted to accept young men between the ages of 18 and 21 years as junior members. The old club rooms over the Fruit house will be occupied by the Columbia club, of which Hon. J. B. White, is president.

MARIE BURRESS SUFFERS

A Night of Pain and a Surgical Operation is Necessary.

Marie Burress, the actress who took the part of Countess Wanda, in "Nordeck" at the Temple last evening, suffered from throat trouble and she was attended by physicians at her room last night. To-day the lady underwent a surgical operation, it being found necessary to cut the tonsils. She was resting easier to-day and accompanied the party to Wabash. Mr. Mayo has made arrangements to retire Miss Burress temporarily if she finds that she cannot play.

The Weather.

WASHINGTON, Jan. 6.—For Indiana: Local snows in northeast, fair in southwest portions, northeasterly winds, stationary temperature in southern, slightly colder in northern portions.

Mr. Parnell.

LONDON, Jan. 6—Mr Parnell and his private secretary, Mr Campbell, M P., Mr [illegible] Harrington, M. P., and Mr Vincent Scully, the defeated candidate [illegible] from North Kilkenny, left this morning for Folkstone, en route for Boulogne.

THE SKIN.

Is an important factor in keeping good health; if it does not act in the way intended by nature, its functions are performed by other organs,—the Kidneys and the Lungs; and the result is a breakdown of general health.

WITHIN SIXTY YEARS.

What Has Been Accomplished in Railroad Construction in That Time--Local Budget.

A review of railroad construction in the United States shows that sixty years ago, when the population aggregated but 12,000,000 people, railroads were entirely unknown. To day we operate upward of 165,000 miles of railroad and our population has increased to 60,000,000. Sixty years ago the aggregated wealth of the United States was less than $1,000,000,000; at present it is estimated at $59,000,000,000. Over our 165,000 miles of railroad there were carried last year 475,000,000 people and 600,000,000 tons of freight transported. Upon these lines are engaged 1,000,000 employes. Their equipment consists of 30,000 locomotives, 21,000 passenger cars, 7,000 baggage cars, and 1,000,000 freight cars. The capital invested in the construction and equipment of this vast railroad enterprise amounts to $8,000,000,000 and the yearly disbursement for labor and supplies exceeds $600,000,000.

Limited passenger train No. 5 on the Fort Wayne road, due in this city at 5:35 a. m., was three hours late this morning. The heavy fall of snow in the east was the cause. While going between New York and Philadelphia yesterday morning the train lost fifty-two minutes.

Wm. Hirt, the well known base ball twirler, has accepted a position at the electric light works and will commence his duties in the morning. He formerly held a similar position in the same works, but for several months has been at Chicago under training to get the points of a zig-zag curve which he will execute on the diamond in this city the coming season.

After quarreling two months the Erie and the Wabash railroad companies have settled their disputes over entrance into Chicago. The Wabash will run trains into Chicago over the Erie tracks as heretofore. It is thought that this settlement will lead to the abandonment of the building of a road from Montpelier to Chicago, to be used as an independent line by the Wabash.

Henry Kortum, a coremaker at the Bass works, received injuries this morning which will keep him from duty for several weeks. A car loaded with cores was being taken from that department, and as it was passing him the plates on which he was standing gave way and his left foot was thrown in such a position that one of the car wheels ran over it. Three of his toes were badly mashed, necessitating the amputation of the small one. He was taken to his home, 59 Huffman street, and is now under the care of a doctor.

THE *Jewelers' Weekly* notes that the war on watch clubs is rapidly spreading to every part of the country. It says the lottery laws of the United States have little bearing on the subject except as they deprive the promoters of the benefits they might otherwise derive from newspaper advertising. The prosecution thus far conducted have been based on the statutes of the States wherein they have occurred. Missouri, Ohio, and one or two other States have already condemned it, and New York, Pennsylvania, and New Jersey courts will soon be called on to decide the question, the public prosecutors in each case saying that these clubs are clearly within the provisions of the penal statutes.

THE range and penetrating power of the modern rifles, says the *Practical Mechanic*, are tremendous. The six-inch rifle will hurl its projectile through ten and a half inches of wrought iron a thousand yards from the muzzle. The eight-inch rifle will pierce sixteen and three-tenths inches of iron at the same distance. The ten-inch rifle that the rejuvenated Miantonomah will carry will send its missile through twenty-one inches of iron a thousand yards away. The twelve inch rifle, of which we are to have a supply in the future, will penetrate twenty-eight inches of iron at a range of three thousand feet.

FEW of those who fasten their gloves with the ingenious little snap button in use for a few years past know the history of the contrivance. It was invented by an American, who tried in vain to enlist in his invention the interest of American capitalists. Nobody could see any promise in the tiny bit of mechanism, and the inventor finally betook himself to France. There he found capital, and the invention speedily became popular. Now the inventor and capitalists interested are getting rich out of the contrivance, and even the American agency is proving a mint of money. The fastener, at first applied chiefly to gloves, is now affixed to umbrellas and to a dozen other articles of daily use. Made of silver, it is put upon ornamental pocket-books, portfolios and the like.

A BUFFALO physician who had examined under a microscope the straps to which the stand-up passengers of the street cars of that city hold on says that they are fairly reeking with bacteria of the most dangerous kind. The physician with a microscope in pursuit of bacilli, fever germs, microbes, bacteria and so on is always liable to excite an unnecessary alarm. But however real the danger in this case, it will not disturb the people of Chicago. They are too well hardened to the more serious perils of street car travel to mind a trifling billion or two of bacteria.

THE recent improvement in type-setting has led many people not familiar with composition to believe that the days of the compositor and his stick and case are numbered. If they are numbered they are numbered a long way ahead. It will be a long time before the busy brain of the inventor will evolve a steam compositor that will take the place of the living one, even though he is at times faulty and cranky, and given to disappearing mysteriously at the very time when his presence is most needed.

MR. STEAD, the English journalist, has a fine nose for news. He is, withal, a religious man and a philanthropist, but he never allows his church duties to interfere with his newspaper enterprises. Every great scandal that has taken place within the last ten years has been boiled down by the reformer into a salacious pamphlet, which has been sold by millions of copies at one penny each. Thus, all things work together for the benefit of him who has the right sort of a nose.

OF course nobody is justified in committing suicide, especially as it is not at all likely that he betters matters any But if anybody could be excused for thinking seriously of the matter it would be J. L. Cody, of Florida, who put himself out of the world a short time since. At the coroner's inquest it was shown that Cody had for some years been staggering along under a combined load of intemperate habits, domestic troubles and a fear of prosecution by the courts.

TAKEN TO THE PENITENTIARY.

Poor Mamie Starr Leaves Chicago for Joliet.

[Yesterday's Chicago Post.]

Life ended for Mamie Starr to-day. She left the county jail this morning and was taken to the state penitentiary at Joliet, there to serve the remainder of her life for poisoning the Newlands. She still has hopes of getting a new trial from the supreme court of the state.

Jailor Morris accompanied the miserable girl to the penitentiary and cheered her as best he could, although he knew in his heart, as did her humane attorney, that her chance of again appearing before a bar of justice was very faint. Her possessions were few, most prized among them being a tiny handkerchief sent her by her little daughter as a Christmas gift. The child is being tenderly cared for at Tawas City, Mich. Infant kisses in the mystic character so readily understood by those to whom they are meant accompanied the gift and letter inclosed.

Something for the New Year.

The world's renowned success of Hostetter's Stomach Bitters, and their continued popularity for over a third of a century as a stomachic, is scarcely more wonderful than the welcome that greets the annual appearance of Hostetter's Almanac. This valuable medical treatise is published by the Hostetter Company, Pittsburg, Pa., under their own immediate supervision, employing 60 hands in that department. They are running about 11 months in the year on this work and the issue of the same for 1891 will be more than ten millions, printed in English, German, French, Welsh, Norwegian, Swedish, Holland, Bohemian and Spanish languages. Refer to a copy of it for valuable and interesting reading concerning health, and numerous testimonials as to the efficacy of Hostetter's Stomach Bitters, amusement, varied information, astronomical calculations and chronological items, &c., which can be depended on for correctness. The Almanac for 1891 can be obtained free of cost, from druggists and general country dealers in all parts of the country.

FOR ✻ CHRISTMAS ✻ AND ✻ NEW ✻ YEARS.

FRUIT HOUSE PRICES.

In many instances there has been little change in prices, especially in staple goods. The sugar market has been steady, the clique who has had hold of it being afraid to advance prices. In consequence of the tariff agitation this was not so last year where in one instance inside of 30 days they sent prices up over 3c. per pound.

Coffee A. Standard, 6½c. Coffee C. Extra Yellow, 6c.
Granulated, Crushed and Powdered, 7c.

The Tea market in second grades has been much higher; these qualities have advanced over 5c. In the first qualities there has been no change; fortunately we had a large supply before the advance which enabled us to continue to sell to our customers at old prices. Our motto in dealing in Teas, like other goods, is to buy in large quantities and we sell direct to the consumer, thereby saving to our customers the profits of the jobber and speculator, which is not less than 10 and 20 c. on the pound. This is the secret in the success of our Tea trade trade-large sales and small profits.

Young Hyson Tea, good, 20c.; choice, 30c.; best, 50c. lb.
Imperial Tea, extra, 30c; best, 50c lb.
Gunpowder Tea, extra, 30c. lb; best, 50c lb.
Oolong or Black Tea, extra, 25c.; best, 50c. lb.
Japan Tea Uncolored, choice, 30c; best, 50c lb.

COFFEE, COFFEE—Rio, Mocha, Java and Roasted Coffee.

There are indications of a great decline in coffee the next two months as receipts in Rio and Santos are very large, and this being shipped to New York will compel the clique who has had hold of the market to let go, and in consequence the market will go down: Prices remain as last quoted:

Best Rio Coffee, 23c. lb. Choice Old Govt. Java, 28c. lb.
Best Green Mocha, 30c. lb. Best Roasted Rio, 25c. lb.
Best Roasted Java, 33c. lb. Best Roasted Mocha, 35c. lb.

A SCIENTIST announces that the size of the head is no indication of the extent of brain-power. Brain surface is the measure of intelligence, and the surface is great or small according to the depth of the convolutions or creases. A man with a small head may have a brain so folding upon itself that it will be of vast extent, while one with a big head by superficial measurement may have the gray matter that enwraps his mind of such shallow convolutions that the mind will be of narrow scope.

REDS DEFEATED!

The United States Troops Have Another Battle With the Indians at Wounded Knee Creek.

CAMP NEAR WOUNDED KNEE CREEK, S. D., Jan. 6.—Another engagement took place at this point yesterday morning. As a number of citizens with supplies were known to be coming on the road from Rapid City to this point, it was thought best to send out a detachment to protect them. So thirty men were picked and immediately started down the road. They had not gone over ten miles, when they discovered the wagons, thirteen in number, drawn up in the form of a square, and being attacked by a band of about fifty Indians. The detachment put their horses to a full gallop, the Indians, seeing which, withdrew to an adjoining hill. The detachment now joined the teamsters, who numbered only nineteen. Sacks of grain, bundles and boxes were thrown up in front of the besieged as breastworks. The Indians, noticing this, immediately returned and commenced the attack, circling about the wagons, but keeping at a distance of 800 yards. As a result, the shots from their Winchesters were not very effective, often falling short of the mark. The carbines of the soldiers were used with more effect, a number of Indians being seen to fall from their horses. Meantime their number was augmented until they numbered some 100 warriors in all, besides some they had posted off on the adjoining hills. One soldier, during the commencement of the fight, while arranging the breastworks, was shot in the shoulder, but not seriously wounded. A soldier was detailed to return to camp and report that the detachment was besieged by the Indians, and that they were attacking the wagon train. He selected a fast horse and made a break at an opportune moment, the attention of the Indians being attracted to movements made on the other side. As soon as the ruse was seen, about twenty Indians gave chase to Private Collin and fired shot after shot at him, but as he had a fast horse, he soon distanced them. They then returned with the others to the attack. Three more Indians were seen to fall from their horses and were picked up and carried away by their companions. Four cavalry horses were shot and killed, as were a large number of Indian ponies. While the large body of Indians were being engaged by the majority of the soldiers and citizens, a few Indians scattered about, dismounted, and getting as close as possible, began firing into the horses and trying to stampede them. This they nearly succeeded in doing in several instances, and had not some soldiers been guarding and holding the horses, they would undoubtedly have succeeded in attaining their object. By this time things were getting pretty hot for the besieged party and shots were flying as thick as hail stones, and it was hard to distinguish the Indians through the smoke. The citizens had been hemmed in for six hours and the soldiers about three hours. A little before 2 p. m. a commotion was seen among the Indians, and they gradually retreated when it was seen that troops were coming at full charge to the rescue. Every one gave three resounding cheers as the troops rode up, the Indians scattering in all directions, and troop F giving chase. They were pursued till near night fall when the chase was abandoned, the wagon train was started, every one returning to camp bringing the dead Indians and some ponies with them.

PINE RIDGE AGENCY, Jan. 6.—Jack Red Cloud and a small party of friendlies came in from the hostile camp yesterday afternoon. They asked that the Indians now at the agency be sent out to help the Indians who fled from the agency on the night of the battle of Wounded Knee, to get away from the hostiles. The authorities look upon the request with distrust, and reserve their decision.

The general situation here is increasing in seriousness. Short Bull, the leading hostile chief, who has distinguished himself all along during this trouble by never for a moment considering any of the overtures looking to an amicable settlement, but who has steadily stuck to his lacre in the Bad Lands, and now assumed command of the great body of hostiles, Sunday night told the government spies that he would take his agency if it cost every warrior he had. Half breeds have been informed by friends and relatives, whom some of them have among the hostiles, that they had better immediately move their families a long distance from the agency, as a great raid and massacre was certain. The half breeds are showing the agency people what they think of this information by getting their families out of here with a rush. The government herder, John Dwyer, and Isaac Clerk Pugh have both discovered through their Indian friends of years standing that a raid and massacre has been fully decided upon and maturely planned. General Miles is thoroughly conversant with all these facts and himself says that the situation is exceedingly critical. There are less than six hundred soldiers here now all told.

FORT TOTTEN, N. D., Jan. 6.—Rumors are current here that the 3,500 Indians on the Tuttle reservation are liable at any moment to inaugurate a massacre of settlers living along the North Dakota border. This band has been unruly for some time on account of their half starved condition and have several times given trouble. The troops here are totally inadequate to protect settlers should an uprising occur. Settlers are much worried over the situation and have sent a protest to Washington against leaving this band of 3,500 savages to menace the people.

ANOTHER BATTLE IMMINENT.

PINE RIDGE AGENCY, Jan. 7.—Everything now points to a battle and a disastrous one. However, it will not be between the troops and the hostiles, but between the hostiles and friendlies, who desire to leave the hostile camp and come into the agency. Red Cloud has signified his desire to return to the agency, but he is nearly blind and no one will volunteer to lead him in for the Brules threaten death to the first person who attempts to desert the hostile band. This is causing trouble.

The older Indians want to come in, but the young bucks insist on fighting However, the cajolerin of medicine men are fast losing strength. Their superstition about the ghost shirt being bullet proof has caused the older Indians to think that peace is more desirable than war. The cordon of troops is drawing tighter around the hostiles.

The Hostiles are on guard night and day. Fires are being burned at night to prevent any one from escaping from their camp, more especially Red Cloud's band.

General Miles has sent a peace commission to the hostiles. If they still refuse to come in their camp will be bombarded. Machine and shell guns are being placed on all sides of the camp, and at the command a murderous fire of hot shell and canister can be showered into the Indian camp. This means utter annihilation to the Indians if the order comes. General Miles is fast becoming impatient, and if the Indians do not obey this last order, a bloody battle of extermination will then be begun.

ARMING HER RETURNS.

Which Gives the Prohibitionists Ten More Votes.

CONCORD, N. H., Jan. 6.—The supreme court last night issued a mandamus directing the town clerk of Rochester, to amend his returns of votes given in that town for senator. The effect of this order will be that the governor and council will reexamine the vote of the Somersworth district to-morrow and and find the prohibition vote of Rochester to be 34 instead of 44 as counted. This gives the democratic candidate two majority and he will be given the certificate. This will give the democrats ten member in the senate to thirteen for the republicans, with no choice in one district. The legislative caucuses of both parties will be held to-morrow night, when the parties will select their candidates for the speakership and the presidency of the senate. It is generally thought the supreme court will render its opinion in the Clerk Jewett case to-day or early Wednesday.

NOMINATED CANDIDATES.

The Caucuses of the Pennsylvania Legislature.

HARRISBURG, Pa., Jan. 6.—At a caucus of republican members of the house last night, Caleb E. Thompson, of Warren county, was nominated for speaker by acclamation; John Morrison, of Allegheny, was chosen for chief clerk, and Chas. W. Voorhees, of Philadelphia, for resident clerk. A resolution favoring the speedy passage of the federal election bill was unanimously adopted by the caucus. The democrats of the house also met in caucus last night, and chose George W. Skinner, of Fulton county, for speaker; Peter J. Hughes, of Philadelphia, for chief clerk. The further nominations in the gift of the house were referred to a committee of five. It was also agreed to meet on the evening of January 19 for the purpose of nominating a candidate for United States senator.

MINISTER MIZNER.

Receives Letters Threatening His Life—Leaves for San Francisco.

NEW YORK, Jan. 6.—A special from La Liberatad, Salvador, says Minister Mizner will leave here to-day for San Francisco. It is asserted that he received numerous letters threatening his life, and that he solicited a body guard from the United States to accompany him to the steamer. Salvador, Honduras, Nicaraguay and Costa Rica, have combined in asking the Washington government to send them separate ministers and will withhold their recognition of Minister Pacheco until a definite answer has been received.

Belgium's Trade.

BRUSSELS, Jan. 6.—The trade returns for 1889 make a very favorable exhibit of the condition of affairs in Belgium. A total increase of 4 per cent. in exports for that period is shown. Exports to the United States decreased 17 per cent., but to other countries there was an increase of 16 per cent.

SKIRMISH WITH SCOTS.

The Glasgow Police Have a Hand-to-Hand Battle With the Striking Railroad Employes.

GLASGOW, Jan. 6.—The evictions of railroad strikers from the quarters occupied by them as employes of companies promises to be the cause of further and serious trouble. Notwithstanding the fact that a largely increased police and military force this morning confronted the rioters at Cowt Bridge, a great iron center about nine miles from this place, rioting was resumed by the now most desperate men.

The troubles of the day were begun by the mob making a fierce onslaught upon the dormitory in which are sheltered the non-union men. The assault opened with a sharp fusilade with stones which was followed by a forward rush of the mob which made frantic efforts to force an entrance to the building. Sharp hand-to-hand fighting than took place between the police and the rioters, the officers vigorously plying their batons, while their assailants fiercely pelted them with stones and beat them with cungels and their naked fists.

At times the policemen would, after extraordinary efforts, succeed in forcing the mob to move sullenly backward, only, however, to again pull itself together and dash forward, cursing and fighting, upon the plucky officers. At the moment of cabling this dispatch several of the policemen and a number of the rioters have been injured.

All the miners in the Rotherwell district suspended work last evening and were largely responsible for the riots. There are 20,000 people about the streets and suburbs at an early hour this morning, and great ill feeling and and excitement prevails.

OUTWITTED BY A SHERIFF.

A Mob Wanted to Deal Out Justice to a Murderer.

GUTHRIE, Oklahoma, Jan. 6.—Representative Terrell, who killed Mr. Embre, was rushed out of the city and taken south yesterday. When the south bound freight train pulled out yesterday afternoon from the station, a large number of men were at the station bent on securing the prisoner and lynching him. But they were outwitted by the sheriff. South of here an obstruction had been placed on the track. The train stopped. The sheriff boarded it with his prisoner. The obstruction was removed and the train proceeded south. The mob is still wondering what became of Terrel.

SO TO PRISON.

MACON, Ga., Jan. 6.—The trial of six citizens in Dodge and Telfair counties for conspiracy and murder in the killing of John C. Forsythe at Normandale, in August last, was ended yesterday, when the jury brought in a verdict finding all but one of the defendants guilty. Luther A. Hall, Charles Clements, and Sheriff Wright Lancaster, were found guilty of conspiracy and murder, with a recommendation to mercy; John K. Lancaster and Louis Knight were found guilty of murder only, and James Moore was found not guilty. Under the law the three first named will receive life sentences.

MAY GET LEFT.

Detroit Hustling for Money for the Next G. A. R. Encampment.

LANSING, Mich., Jan. 6.—The fate of the proposed national G. A. R. encampment in Detroit next summer, is trembling in the balance. It was proposed to raise $25,000 for the encampment by private subscription, a like sum to be raised by the city of Detroit, and the legislature to appropriate $50,000 to make up the total $100,000 required. The Detroiters have come to a dead standstill in the work. Gov. Winans announced that he was opposed to a legislative appropriation on the ground that it would be unconstitutional to devote public money to private use. A committee hurried out from Detroit Saturday to see the governor on the subject. Last night a second committee of Detroiters waited upon the governor. It became very evident that he could not be induced to change his position. It is plainly said that if the legislature does not appropriate the $50,000 required, the encampment cannot be held.

(The Japanese Murderer.

NEW YORK, Jan. 6.—Roger M. Sherman, counsel for Jugigo the Japanese murderer, who is to be electrocuted during the week beginning on the 12th instant at Sing Sing, applied this morning to Judge Lacomb, in the circuit court for a habeas corpus, pending the argument for a stay. Judge Lacomb denied the motion, but signified his willingness to grant an appeal to the supreme court. The appeal will probably be formally granted this afternoon.

Sent to Ireland.

BOSTON, Jan. 6.—Hon. P. A. Collins and T. B. Fits, trustees of the tenants defense fund yesterday cabled $6,600 through the Mavorick National bank to Messrs. Webb and Kenny, the treasurers in Ireland.

Died Abroad.

BRUSSELS, Jan. 6.—The wife of the American minister, Mr. Terrell, died yesterday of rheumatin fever after an illness of nine weeks. Although she had been here only eighteen months, she had gained hosts of friends and was a popular hostess. Her loss will be sincerely deplored in the diplomatic world and throughout the entire community.

LEGISLATIVE MUDDLE.

Montana's Trouble of Last Year Renewed.

HELENA, Montana, Jan. 6.—Yesterday was the date set for the meeting of the state legislature, and three bodies of men met in as many different places and organized three branes of the Montana legislature. In the senate it was all easy sailing, as the body stands ten democrats and six republicans. But the trouble over the ten members from Silver Bow county remains just as it did last year. Twenty-nine republicans met in the Electric light hall, where State Auditor Kinney called the roll, in which he included the five republican contestants from Silver Bow county. All the democratic members of the house, including the five democratic claimants from Silver Bow county, met in another hall and organized by electing Harry Courly speaker and a full list of officers. The republican house also elected officers. Just after noon the committee from the democratic house waited on the senate and governor with the information that the house of representatives had organized and were ready for business. Governor Toole and the senate each recognized this organization. This afternoon the republican house sent a message to the senate that it was organized and ready for business. This message, by a vote of 10 to 6, was rejected, and the clerk was directed to make no note of it on his minutes.

As the matter stands now the deadlock is as complete as it was last year, when not a law was passed. As the democrats have the senate and governor this year, where last year the senate was a bs, they have the best of it, but if the matter goes to the supreme court, as it will undoubtedly do, if that body follows the precedent set last year, it will decide in favor of the legality of the republican house. As there are no more senatorships in the balance this year there is nothing in particular to fight for and the belief is pretty general that some sort compromise may be made in a few days which will end the dead-lock. The governor's message will be delivered tomorrow. There was no trouble of any sort despite the prediction of the sensationalists, and both sides, while determined, were in the best of humor.

GOULD'S LAST GUINEA.

He Has Secured Control of the Santa Fe Railroad.

CHICAGO, Jan. 6.—A rumor is in circulation in connection with the affairs of the Santa Fe road which, should it prove to be well founded, will cause more surprise in railroad and financial circles than any other of the startling events with which that road has recently been connected. It is to the effect that negotiations are now in progress, and have almost been carried to the point of consumation, for the consolidation of the Santa Fe and the Missouri Pacific railroads.

It has more than once been asserted of late that Jay Gould, at the same time he secured control of the Union Pacific road, had virtually acquired ownership of the Santa Fe as well, and it has never been denied that he has recently been a large investor in that property. It is claimed by those who are in a position to know that the preliminaries have all been settled, and that the perfecting of the deal only awaits Gould's further pleasure, and is a mere matter of time and convenience.

FARMERS ON TOP.

The Alliance Elects Officers in the Nebraska Legislature.

LINCOLN, Neb., Jan. 6.—The legislature organized at noon to-day, the Alliance having a clear majority and electing temporary officers without trouble.

C. H. Pierlie, secretary of the state central committee of the independent party, was elected secretary pro. tem. of the senate by a majority of one.

S. M. Elder was elected temporary speaker of the house and Eric Johnson, secretary. The temporary speaker is without education or experience and a turbulent session is confidently expected.

NEARLY WIPED OUT.

A Texas Town Visited By the Fire Fiend.

GAINESVILLE, TEXAS, Jan. 6.—The little town of Bolivar, ten miles southwest of here, was nearly destroyed by fire Sunday night. All the business buildings, together with the postoffice, were destroyed. The loss is estimated at $25,000, half covered by insurance. The fire was of incendiary origin.

Heavy Failure at Michigan City.

MICHIGAN CITY, Ind., Jan. 6.—L. W. Wilson & Co., lumber dealers, made an assignment. The liabilities are estimated at $150.000; assets, $50,000. The home creditors are secured; the outsider finds very little in sight.

Foreman Dead.

PITTSBURG, Jan. 6.—Michael Quinn, a foreman in the stock yards of the furnace department of Edgar Thomson's steel works at Braddock, died this morning in the Mercy hospital, this city.

CONGRESS.

The House Will Ask for the Correspondence Concerning the Killing of Sitting Bull.

WASHINGTON, Jan. 6.—No quorum of the senate appeared until 10:45, and then only after a call of the senate had been ordered. There were but six senators present when the body was called to order at 10 o'clock. After a quorum had been secured and the journal read, some routine business was transacted and further consideration of the financial bill proceeded with.

The house committee on Indian affairs will report favorably the resolution calling for the correspondence about the killing of Sitting Bull.

Numerous telegrams are passing between General Miles and the war department officials, but few of them are made public. Since the suspension of Colonel Forsythe in the face of the enemy many telegrams touching that case have passed between Secretary Proctor, General Schofield and General Miles. The telegrams are not made public, but it is known that an important telegram from General Miles about the Forsythe case was laid before the cabinet to-day by Secretary Proctor.

Its contents could not be positively ascertained, but army officials who are in a position to know, intimate quietly that General Miles does not endorse the suspension of Colonel Forsythe, and in suspending him, he simply carried out the orders from the White House.

EMMA ABBOTT'S WEALTH.

The Dead Prima Donna Was Worth Over $1,000,000.

CHICAGO, Jan. 6.—Mrs. Abbott, mother of the late Emma Abbott, together with a younger brother and sister, reside in this city. Her brother says of her: "There are very few men who are as capable in the management of business interests as my sister. She said very little about her business affairs and I am not able to say how much she was worth. However, I know that her property is worth fully $1,000,000, possibly more than that."

Mr. Abbott states that it was his sister's intention to build a handsome home for the family here in Chicago, and at the time of her death she was discussing a suitable location. Her plan was to place the family in this home, and then take a trip through Europe with her company, which was to occupy three years.

IN COURT.

The South Chicago Bank Robbers Arraigned.

CHICAGO, Jan. 6.—The South Chicago robbers were arraigned before Justice Robbins, in Hyde Park, this morning. Corbett, Featherstone and Bennett waived examination, and were held to the criminal court, the first two in $10,000 bail each, and the latter in $15,000. Mullan's lawyer asked for a continuance, which was granted, and the alleged arch conspirator in the robbery will be examined next Saturday. Bennett's bond is heavier than the others because he shot and wounded a police office.

Crushed to Death.

TOLEDO, Jan. 6.—Shortly after 6 o'clock last evening, as a big mogul engine was backing down the Lake track near this city it ran into a train of flats. The tank of the engine was lifted up and pushed against the boiler-head, pinning three men who were standing in the cab. Joseph Sawyer and Terrence Kilbride, helpers, were almost instantly killed, and Michael Kirschner, a pony conductor, severely crushed. The engineer and fireman were on the seats of the cab and escaped serious injury. A blinding snow storm prevented Engineer John Corbett from seeing the flats until it was too late to avert the accident. Both Sawyer and Kilbride leave families. Kirschner will recover.

Foreign.

PRAGUE, Jan. 6.—A letter was yesterday read in the Diet from the Count of Thun, governor of Bohemia, which represented that the government had determined to make no further concessions to the Czechs than those contained in the compromise arranged by the conference held at Vienna last January.

LONDON, Jan. 6.—Everything points to a general election in the spring according to the program outlined in these dispatches two weeks ago. Sir Wm. Hardtyke, M. P., for Dartford, who is known to be in the confidence of Lord Salisbury's government, has advised his friends to prepare for a dissolution of parliament about Easter.

For Electioneering Purposes.

LONDON, Jan. 6.—In in interview yesterday, Sir Charles Tupper, the Canadian commissioner, said he did not believe that the naval forces of the United States were being placed in readiness to attack the vessels of foreign nations. He inclined to the belief that the utterance of American government on the Behring Sea question might have been circulated for electioneering purposes.

Next West Pointer from the Eighth.

TERRE HAUTE, Ind., Jan. 7.—The result, with the average percentage of the examinations, for the appointment to West Point for this district, is as follows: W. S. McBroom, Montgomery county, 94.2; L. G. Cavins, Sullivan, 85 1; Herbert L. Jones, Vigo, 83; Howard Griest, Montgomery, 82 8; Hardy Conver, Fountain, 75.8; Wallace Wheat, Parke, 75 2; Robert F. Darby, Vermillion, 73.4; H. R. Rosencrause, Parke, 63.7; Wm. Plumb, Brazil, 55.6.

ENGLISH COMMENT

Concerning the Behring Sea Difficulty.

LONDON, Jan. 6.—The St. James Gazette, in referring to the Behring Sea embroglio, says it accepts the official denial, but asks why is the navy of the United States being massed in the waters of the Pacific ocean unless it is intended to make Behring Sea a Mare Clausum. The Gazette adds that officers of the American navy do not act upon rumors published in the New York Herald or the Pall Mall Gazette.

The Pall Mall Gazette says: Mr. Blaine obviously means to try more "bounce" for the sake of making political capital. The paper is, however, convinced that the American people will not support Mr. Blaine, and asserts that the matter in dispute should be submitted to arbitration.

The Globe attributes the existing friction to Blaine's bragging spread eagleism. In a view of a possible, though unlikely American display of force, the Globe says that Great Britian should at once strengthen her Pacific squadron. The article concludes by advocating the submission of the matter to arbitration.

THREE DEACONS FINED.

Made to Pay $25 Each For Throwing a Brother Out of Church.

BELLAIRE, Mich., Jan. 6.—Trouble in All Saints' church was started last Tuesday, when three deacons threw Z. B. Hayes out of the church for refusing to sing, pray or speak.

They claimed that he was a backslider, and when they laid hands on him they dashed him to the ground with great force, cutting his face on the frozen ground. Hayes swore out a warrant against them for assault and battery, and the case was tried before Justice Kibby.

The trial was attended by all the church members for miles around, and so great was the crowd that adjournment was made to the town hall.

Before each session of the court brethren and sisters knelt on the floor and prayed long, loud and earnestly that the heart of the magistrate might be touched during the progress of the trial.

Justice Kibby warned the deacons who led the devotional exercises to stop, but it did no good. The trial ended this afternoon by the justice declaring all three deacons guilty, and fineing them $25 each.

Failures.

CLINTON, Ia., Jan 6.—The Mutual Guarantee fire insurance company of Clinton, made an assignment yesterday, with liabilities of $47,000, and assets which include a $30,000 guarantee, that reaches $29,200. The cause of assignment is slow collections on notes made by the company. Attorney J. H. Barker, of Clinton, is assignee. All policies will be cancelled and an adjustment be made of over paid premiums.

BOSTON, Jan. 6.—Lowell Bros. & Co., produce dealers, have assigned. The liabilities of the firm are not known. Outside speculations are the supposed cause of the firm's embarrassment.

Nathan Schloss, tobacco dealer, has assigned. Liabilities $40,000.

NEW YORK, Jan. 6.—Henry C. Aspinwall, dealer in tiles, grates and metals, at No. 303 Fifth avenue, made an assignment to-day. Liabilities and assets not stated.

LAREDO, TEX., Jan. 6.—A well defined rumor was current on the streets last night that the Laredo Improvement company will go into the hands of a receiver to-day. In fact, it has been decided, so it is reported, that Messrs. J. O. Nicholason and Chas. L. Yager will be appointed receivers. The estimated liabilities are $300,000, and the assets about the same amount.

Think It Was a Gas Disturbance.

ELWOOD, Ind., Jan. 6.—The residents of this town and those for many miles around are much exercised over the slight earthquake which was felt Saturday evening. The shock was felt nearly all over this county. As this place is in the natural gas region it is very generally believed that the disturbance came from natural gas. Many people believe that the tremble is the premonition of a great upheaval of the natural gas territory. Residents of the natural gas territory have not rested entirely easy since the great natural gas upheaval in Shelby county a few months ago.

Kuhns talked willingly and answered the questions promptly. The case will come up in Leipsic.

William Rsough has been appointed administrator of the estate of William Bowey.

Judge Dawson decreed Perry Township a judgment for $1.75 and costs against Charles E. Sterling. The controversy grew out of a difference on road work.

Elizabeth Virgil sues Laura Hensil for $100 on a note. A. A. Parman is attorney.

"BILLY" MANNIX

Seems to Be in the Lead For Doorkeeper of the Senate.

The Indianapolis Sentinel says:

"Dr. J. D. Morgan, the senator from Allen county, arrived last night and is at the Grand. Mr. Morgan is a young man of more than ordinary ability. He resides at Monroeville, sixteen miles east of Fort Wayne, and especially represents the country democracy of the banner democratic county in the state. He says that there will be no opposition to the fee and salary bill from his county. The only contention will be on the time that the bill should take effect.

"To morrow you will see here a large delegation from Old Allen' in behalf of William T. Mannix for doorkeeper of the senate," said he. "Allen county has not a man in the state house, and this is our only chance to get one. Mr. Mannix was postmaster of the senate in 1885, and is well qualified for the position."

"W. S. Oppenheim from Allen and Huntington is at the Bates. In the last house he was one of the leaders and was on the committee that formed the school book bill."

INTO NEW QUARTERS.

The old club rooms over the Fruit house will be occupied by the Columbia club, of which Hon. J. B. White, is president.

A GREAT BLESSING.

CLEVELAND, O., Sept. 1, 1887.

I can most truthfully testify to the fact that here in Cleveland, several cases of epilepsy, which were cured by the medicine of Rev. Father Koenig, of Ft. Wayne, Ind., have come under my personal observation. In other similar cases great relief was given even if up to this time they have not been entirely cured. It would certainly be a great blessing if the tidings were more widely circulated that many could be cured by this medicine.

THE legislatures of a number of states assemble this week.

THE Akron Eagle having suspended publication the Fulton County News will endeavor to supply the field.

THE Michigan City Appeal has been enlarged from a folio of thirty-six columns to a quarto of sixty-four columns.

ELABORATE arrangements are making for the banquet to be given on the 7th inst., by the business men of Marion, to the newspaper men of the Indiana gas belt and others.

COLUMBIA CITY is coming to the front. A week ago it had a murder; now it has a suicide. Yesterday Mrs. Mary Shaw ended her life by taking arsenic, because her husband abused her.

GOVERNOR HOVEY will give a reception to the members of the Indiana legislature on Thursday evening. It is expected one thousand persons will be present, and everything will be on tip-top style.

JOSEPH PLEW, of Kosciusko, given a life sentence in 1887 for the murder of Henry Dunham and little daughter, by which he realized $136, died in prison on Saturday. On his death bed he confessed having committed the crime unaided.

THE organized carpenters of St. Louis have issued a circular to the bosses in which they state that on and after May 1st, 1891, eight hours shall constitute a days work and that $3.20 shall be the lowest price paid for said days work. This agreement is to last until May 1st, 1892. The master builders were surprised at the action of the carpenters and a meeting has been called to consider what action will be taken regarding the circular.

THE Ohio athorities do not seem to be sure that they can make a case against Marvin Kuhns, the desperado, who is confined in the county jail, for the murder of Campeau at Fostoria. A telegram from Tiffin, Ohio to which place he will be taken for trial says: "The grand jury met to-day, and will dobtless return an indictment against him for murder in first degree. A great and possibly successful effort will be made to secure a conviction, but it is no secret that the athorities are apprehensive that the evidence is not sufficent. It is not likely that the trial will take place before the April term of court, as the defense, by whomsoever it may be conducted, will be unable to make needed preparations for trial at the present time."

THEODORE S. CUYLER, in his interesting and practical book of hints, just published, and entitled, "How to be a Pastor," urges pastors to remember that they will sometimes have the opportunity to do more execution in a single talk at the fireside than in a hundred sermons. This he illustrates by the following incident: "I once spent an evening in the vain endeavor to bring a man to a decision for Christ. Before I left he took me up stairs into the nursery to show me some beautiful children in their cribs. I said to him tenderly: 'Do you mean that these sweet children shall never have any help from their father to get to heaven?' He was deeply moved, and in a month became an active member of my church. For twenty-five years that man has been glued to me; infinitely better, he has steadily glorified his Saviour." Certain it is that the gospel of the fireside, house to house preaching, is the most effective of all. And in such a pulpit a very ordinary preacher, if he has piety and God, can equal Chrysostom.

THE INDIAN QUESTION.

The Indian question has leaped to the front of late and is now one of intense interest. Once the red men owned every foot of ground upon the American continent, but the white man crossed the ocean and since then, slowly, but surely, the dusky men of the forest have seen their power decay. The pale face landed upon the shores of the Atlantic coast, secured a foothold and step by step, by one means or another, the Indian was driven westward, first into one state and then into another until now only a remnant—about a quarter of a million of them—remains, and we have apportioned to them large areas in different parts of the country—north of Texas, in Dakota, Arizona, Montana and Washington—and told them to stay there and behave.

But there is no game in the forests; they can't live wholly on fish, and it seems impossible for them to adopt our customs, dress and mode of life. They are restless and uneasy; chafe at the fate which slowly exterminates them; dream of the old days when they were the proud owners of everything and the white man was an unwelcome intruder, and indulge the hope that the Great Spirit will some time restore them to their rights.

We are a young, vigorous and aggressive people. The continent is none too large for our purposes, and the red man has only a few more years to live. He hasn't kept up with the procession; by little and little he is dropping out and dying on the road side. He can't understand the situation, and once in a while puts on war paint, sharpens his tomahawk and fiercely resists the inevitable. He has done so at the present time, and when he emerges from the struggle his ranks will be still further diminished.

What to do with the Indians is a hard question to answer. The methods by which they were deprived of their lands was not always just, but the march of civilization demanded the millions of acres which they occupied and they were compelled to go. The Indian tells of broken promises made by the white men and little wonder is it that they worked into a passion and are led to open revolt by their leaders. But in every warfare they are crushed and so it will be in this.

Our Indians policy, whether right or wrong, will soon work out its own solution. The time will soon come when their ranks will dwindle down to a few thousands or hundreds, and then in the course of a few more years an Indian in the United States will be something of a rarity. Time will solve the Indian question, but in its solution the American nation will have much wrong to answer for. Our Indian record has been far from spotless.

JUSTICE BROWN.

Installation of the New Judge of the Supreme Court.

WASHINGTON, Jan. 5.—The installation of Judge Henry B. Brown, of Michigan, as an associate justice of the supreme court of the United States, took place shortly after noon to-day in the supreme court chamber. The ceremony was brief and impressive. When the black robed justices of the court, headed by Chief Justice Fuller and Marshal Wright entered the court room at noon, the room was crowded with members of the bar and a number of other persons. Within the bar of the court were seated Attorney General Miller, Ex-Attorney General Garland, Ex-Postmaster General Dickinson, Solicitor General Taft, and many prominent lawyers. About a score of senators and representatives, including most of the members of the Michigan delegation, were also present, Judge Brown, attired in a new robe loaned to him by Justice Field, brought up the rear of the procession of justices, and while they were being seated he stood at the clerk's desk. Chief Justice Fuller announced the appointment of Judge Brown, and said he was present and ready to take the oath of office. Clerk McKenny then read the president's commission of the new justice.

When Mr. McKenny had finished, all present, including the members of the court, rose and remained standing while Judge Brown recited slowly, clearly and impressively the oath that made him a full fledged justice of the highest judicial tribunal of the country. When he had finished Marshal Wright escorted him to his seat on the extreme left of the bench, next to Justice Lamar. The new justice shook hands with Justice Lamar and, after bowing to the chief justice and the associate justices, he sat down, and the ceremony of installation was over.

The greatest cure on earth for pain, Salvation Oil; sing the refrain.

"You out to-day, my friend, in this cold wind? I thought you were sick in bed with a cold." He said nothing, but smiled a jolly smile and led me to the apothecary's shop, and pointing to a big advertisement of Dr. Bull's Cough Syrup, said: "Thereby hangs the tale; that tells the story."

ALL ARE HUSTLING.

The Candidates for the Offices at the Disposal of the Indiana Legislature—The Speakership.

The Indiana legislature will assemble on Thursday of this week and the contest for the various offices at their disposal is pretty lively, as will be seen by the following from the Indianapolis Sun:

"Sunday the law-makers began to arrive at the Hoosier capital in earnest, and by Monday noon they fairly swarmed about the hotels. For the next sixty days the legislature will be the center of attraction, and the members are here to see that the tide begins to flood and ebb in good shape, when it will be able to look after itself when the wheels in the foundry commence to whirl. The statesmen are also on the ground early to find a strong nail to hang on nights, and to give the candidate element something to do. Among the Monday morning arrivals was Judge Samuel B. Hench, of Fort Wayne, who is decidedly in it for the speakership. The judge is a batchelor and might 'fess up to forty, and then some more. He is rather tall, heavily built, wears a sandy moustache and goatee, and his head is sprinkled with grey. In manner he is an easy, graceful talker, and isn't even overawed when being interviewed by a reporter. He has dealt with the newspaper profession before and easily evades any querries that he doesn't like to answer with: "What do you think about it?" After he has granted the interview, which he does in the best of humor, he will say:

"If that doesn't appear just right, I want you to come to the hotel and let me throw you through the window."

"The reporters knew it would be foolish to disobey a big man like Mr. Hench, and readily consent to return, as he might go to the office after them. Monday Judge Hench said to the Sun:

"We will not have any trouble, but just a nice serene time over the speakership. I'm not counting any chickens, but am confident. If I'm 'scooped,' all right—if not, so much the better."

"Young Mason Niblack, of Vincennes, is very busy making hay. He doesn't think the speakership is right in his hands, but like his good natured opponent, Judge Hench, he feels like a winner. Mason has a boyish appearance, decidedly so when you are close enough to see the growth of fuzz on his upper lip. He pounded the marble slab in the house once before.

"Our own Capt. J. B. Curtis is out in his best bib and tucker for the same position. Marion county is pressing close to the front with her candidate.

"Who will draw the capital prize? The legislators are not prepared to say. Each of the three candidates have a strong following, with Niblack probably in the lead by a nose. It will take hustling for any of the gentlemen to carry away any of the honors, the contest going in full blast until the democratic caucus Wednesday night. The house has never elected the same speaker to a second term and Niblack's opponents are making this a strong point, as well as that the north must be recognized after bearing with second rate honors for so many years. No democrat north of the National road has ever occupied the speaker's seat. Should these and other points force Niblack to third place, it will leave a catch-as-catch can contest for Candidates Hench and Curtis, with the former possibly in the lead.

"After the speakership comes a host of candidates for the other positions. Even "0-years old boys in the persons of Charles Cullen, R. L. Paddock, jr., and Geo. Nave, all bright faced little hustlers, are canvassing like veteran office-seekers for positions as pages among the sturdy law moulders. In the house Emmett Rose, of Marion county, and T. I. Newkirk, are in the scramble for the principal clerkship, with C. E. Crawley, Sullivan; D. T. Stevenson, Crawford and J. F. France, Adams for assistants. F. D. Heimbaugh, Miami; J. T. Robinson, Tipton; Ira Webb, Marion; Herman Freygan, Steuben; J. D. Carter, Carroll; W. E. Cooprider, Clay, and Ed. Hayes, Posey, are out for doorkeeper.

"In the senate D. H. Fenton, Lake; G. S. Pleasants, Switzerland, and W. J. Hilligass, Delaware, are after the secretaryship, and J. V. Benz, Crawford, and J. D. Carter, Orleans, for assistants. For doorkeeper: Capt. McInerny, St. Joseph; O. T. Wells, Marion; J. C. Carleton, Lawrence; Col. Shanks, Washington; D. F. Lemon, Crawford; David Sulger, Wells; Will Mannix, Allen. The army out for union appointments is too numerous to mention.

"Marion county is out with a large number for legislative appointments. Being already so well supplied with state positions, the Hench men claim it will hurt Curtis' chances, and that it leaves only one man in the race for the coveted chair—Judge Hench."

The divorce suits brought by William B. F. Law, sr., and William B. F. Law, jr., both of whom are convicts in the prison south, have caused quite a sensation at Franklin, where the defendants' wives live. In March, 1886, old man Barker and son, neighboring farmers, were found with their throats cut and each with two rifle bullets in the head; and there being a bitter feud between the Law and Barker families, suspicion fell upon the Laws, father and son, and after a bitter trial they were convicted of manslaughter, and were each sentenced for twelve years. Shortly after their imprisonment old man Law was granted a pension with $5,000 arrearages and the son fell heir to $25,000 by the death of a relative. Neither father or son have contributed one dollar to their respective families since their incarceration, and the latter still live at the old Law homestead and make a scanty living by the hardest of work. In the divorce complaints the plaintiffs allege adultery and demand custody of children, and yet both the ladies are above reproach, and the younger is the daughter of a leading family in Johnson county. Their friends will aid them in making a stubborn defense.

MASONIC TEMPLE.

Wm. Redmund To-Night—Sol Smith Russell To-Morrow Night.

Music and Drama, of San Francisco, says of Wm. Redmund, who will present "Cuchillo" at the Temple to-night: "The fine presence and finished methods of William Redmund make each part he undertakes most romantic and picturesque, full of fire and virility, stirring in their strength and touching in their pathos." He is a splendid actor and has won fame on the American stage.

An era of good, wholesome, clean comedy will be at the Masonic temple to-morrow evening, when Sol Smith Russell appears in that successful comedy drama, "A Poor Relation." Mr. Russell comes here fresh from his triumphs at Daly's theater, New York, where he played six weeks to crowded houses. In the part of Noah Vale, Mr. Russell's success is akin to that of Jefferson in "Rip Van Winkle." Noah is an honest soul who is trying to care for the family of a young woman whose husband has deserted her. He invents a machine that figures prominently in the plot, and that brings him no end of trouble, and also enables the villain of the play to work dreadful complications. The "Poor Relation," after many trials, marries the heroine, and all ends happily.

WHAT IS SAPOLIO?

It is a solid handsome cake of scouring soap which has no equal for all cleaning purposes except in the laundry. To use it is to value it...

What will SAPOLIO do? Why it will clean paint, make oil-cloths bright, and give the floors, tables and shelves a new appearance. It will take the grease off the dishes and off the pots and pans. You can scour the knives and forks with it, and make the tin things shine brightly. The wash-basin, the bath-tub, even the greasy kitchen sink will be as clean as a new pin if you use SAPOLIO. One cake will prove all we say. Be a clever housekeeper and try it.

WITHIN SIXTY YEARS.

What Has Been Accomplished in Railroad Construction in That Time--Local Budget.

A review of railroad construction in the United States shows that sixty years ago, when the population aggregated but 12,000,000 people, railroads were entirely unknown. To-day we operate upward of 165,000 miles of railroad and our population has increased to 60,000,000. Sixty years ago the aggregated wealth of the United States was less than $1,000,000,000; at present it is estimated at $59,000,000,000. Over our 165,000 miles of railroad there were carried last year 475,000,000 people and 600,000,000 tons of freight transported. Upon these lines are engaged 1,000,000 employes. Their equipment consists of 30,000 locomotives, 21,000 passenger cars, 7,000 baggage cars, and 1,000,000 freight cars. The capital invested in the construction and equipment of this vast railroad enterprise amounts to $8,000,000,000 and the yearly disbursement for labor and supplies exceeds $600,000,000.

John Drubot, of the moulding department of the Bass works, is absent from duty on account of the serious illness of his little daughter.

A. Bailey, of the Bass boiler shop, has resumed his duties after a few days' absence, on account of being hit in the eye with a flying piece of steel.

S. P. Dras, superintendent and manager of the South Light and Fuel company at Atlanta, Ga., is in the city on business with the Kerr Murray works.

The brotherhood of railroad trainmen contemplate holding a grand reception and ball about the ninth of next month. They are arranging for a fine entertainment.

Jacob Cashmere, of the Wabash shops, who has been on the sick list for several days, left yesterday to be under the care of the company's physician in the hospital at Peru, Ind.

H. Rupert, of the lamp department of the electric light works, has returned from spending the holidays in Brooklyn. He brought his family along and will make this city his home.

Michael Kinney, of the Pittsburg car shop, has resumed his duties after a two weeks absence on account of an injured foot which he received by accidentally letting a car wheel fall on that member.

Mike Carrol, formerly of the Nickel Plate road, spent Sunday in this city. He is now located at Lima, Ohio. A few weeks ago while setting a brake on top of a car his feet slipped and he was thrown to the ground and was injured, but not seriously.

The machinists in the Wabash shop were treated to a box of cigars by the officials, yesterday, for their earnest work in getting engine 18 of the Cincinnati, Jackson and Mackinaw turned out of the shops before the first of the new year. It received a general overhauling. Engine 29, of the same road, was received in the shops yesterday for general repairs.

Ed Hill, of the Pittsburg machine shop, is recovering from a sickness.

J. T. Peckham has resigned his position at the east Pittsburg car shop.

J. Stockwell, engineer, and W. Ziegler, fireman, of the Grand Rapids road, are absent from duty on a few days vacation.

W. M. Vancedale, the well known fireman on the Pittsburg road, is happy over the arrival of a ten pound baby boy at his home.

"Doc" Keag, switchman in the yards of the Nickel Plate road, has resumed his duties after a weeks absence on account of sickness.

Frank Johnson, fireman on the Pittsburg road, was taken sick at Crestline Sunday and was brought to his home in this city yesterday on the noon train. He lives at 26 Millta street.

J. E. Rondot, passenger fireman on the Pittsburg, has reported for work after a few days sickness, and Engineers W. N. Barden and E. Fink are obliged to be absent on account of illness.

D. L. Judy has accepted a position in the Pittsburg machine shop. He formerly held the same position, but has lately been employed in the shops of the Lake Erie and Western road at Findlay, O.

Engineer C. Durnell and Fireman Wm. Devney, of the Pittsburg road, and Wm. Rehling, fireman on the Grand Rapids, are sick, and L. H. Slagle, engineer on the Grand Rapids road, is off duty on account of the serious illness of his son.

Frank Carmon and P. Lupton, engineers on the Grand Rapids road, are now firing on their old runs for a few weeks on account of the small amount of freight shipped at this season. Three of the extra firemen have been given a vacation.

John Kiley, formerly fireman on the accommodation of the Wabash road, between this city and Lafayette, has been promoted to engineer and is now running an engine in the yards at the latter city. Tom Call is now firing the accommodation.

Engine 15, of the Grand Rapids road, is in the shops for repairs, and No. 19, has been turned out after a general overhauling. Engines 153 and 183, of the Pittsburg road, are in the round house for repairs, and No. 380 has been put out on the road after some repairs.

Limited passenger train No. 5 on the Fort Wayne road, due in this city at 5:55 a. m., was three hours late this morning. The heavy fall of snow in the east was the cause. While going between New York and Philadelphia yesterday morning the train lost fifty-two minutes.

Wm. Hirt, the well known base ball twirler, has accepted a position at the electric light works and will commence his duties in the morning. He formerly held a similar position in the same works, but for several months has been at Chicago under training to get the points of a zig-zag curve which he will execute on the diamond in this city the coming season.

After quarreling two months the Erie and the Wabash railroad companies have settled their disputes over entrance into Chicago. The Wabash will run trains into Chicago over the Erie tracks as heretofore. It is thought that this settlement will lead to the abandonment of the building of a road from Montpelier to Chicago, to be used as an independent line by the Wabash.

Henry Kortum, a coremaker at the Bass works, received injuries this morning which will keep him from duty for several weeks. A car loaded with cores was being taken from that department, and as it was passing him the plates on which he was standing gave way and his left foot was thrown in such a position that one of the car wheels ran over it. Three of his toes were badly mashed, necessitating the amputation of the small one. He was taken to his home, 59 Huffman street, and is now under the care of a doctor.

THE *Jewelers' Weekly* notes that the war on watch clubs is rapidly spreading to every part of the country. It says the lottery laws of the United States have little bearing on the subject except as they deprive the promoters of the benefits they might otherwise derive from newspaper advertising. The prosecution thus far conducted have been based on the statutes of the States wherein they have occurred. Missouri, Ohio, and one or two other States have already condemned it, and New York, Pennsylvania, and New Jersey courts will soon be called on to decide the question, the public prosecutors in each case saying that these clubs are clearly within the provisions of the penal statutes.

THE range and penetrating power of the modern rifles, says the *Practical Mechanic*, are tremendous. The six-inch rifle will hurl its projectile through ten and a half inches of wrought iron a thousand yards from the muzzle. The eight-inch rifle will pierce sixteen and three-tenths inches of iron at the same distance. The ten-inch rifle that the rejuvenated Miantonomah will carry will send its missile through twenty-one inches of iron a thousand yards away. The twelve inch rifle, of which we are to have a supply in the future, will penetrate twenty-eight inches of iron at a range of three thousand feet.

FEW of those who fasten their gloves with the ingenious little snap button in use for a few years past know the history of the contrivance. It was invented by an American, who tried in vain to enlist in his invention the interest of American capitalists. Nobody could see any promise in the tiny bit of mechanism, and the inventor finally betook himself to France. There he found capital, and the invention speedily became popular. Now the inventor and capitalists interested are getting rich out of the contrivance, and even the American agency is proving a mint of money. The fastener, at first applied chiefly to gloves, is now affixed to umbrellas and to a dozen other articles of daily use. Made of silver, it is put upon ornamental pocket-books, portfolios and the like.

A BUFFALO physician who had examined under a microscope the straps to which the stand-up passengers of the street cars of that city hold on says that they are fairly reeking with bacteria of the most dangerous kind. The physician with a microscope in pursuit of bacilli, fever germs, microbes, bacteria and so on is always liable to excite an unnecessary alarm. But however real the danger in this case, it will not disturb the people of Chicago. They are too well hardened to the more serious perils of street car travel to mind a trifling billion or two of bacteria.

THE recent improvement in typesetting has led many people not familiar with composition to believe that the days of the compositor and his stick and case are numbered. If they are numbered they are numbered a long way ahead. It will be a long time before the busy brain of the inventor will evolve a steam compositor that will take the place of the living one, even though he is at times faulty and cranky, and given to disappearing mysteriously at the very time when his presence is most needed.

MR. STEAD, the English journalist, has a fine nose for news. He is, withal, a religious man and a philanthropist, but he never allows his church duties to interfere with his newspaper enterprises. Every great scandal that has taken place within the last ten years has been boiled down by the reformer into a salacious pamphlet, which has been sold by millions of copies at one penny each. Thus, all things work together for the benefit of him who has the right sort of a nose.

OF course nobody is justified in committing suicide, especially as it is not at all likely that he betters matters any. But if anybody could be excused for thinking seriously of the matter it would be J. L. Cody, of Florida, who put himself out of the world a short time since. At the coroner's inquest it was shown that Cody had for some years been staggering along under a combined load of intemperate habits, domestic troubles and a fear of prosecution by the courts.

TAKEN TO THE PENITENTIARY.

Poor Mamie Starr Leaves Chicago for Joliet.

[Yesterday's Chicago Post.]

Life ended for Mamie Starr to-day. She left the county jail this morning and was taken to the state penitentiary at Joliet, there to serve the remainder of her life for poisoning the Newlands. She still has hopes of getting a new trial from the supreme court of the state.

Jailor Morris accompanied the miserable girl to the penitentiary and cheered her as best he could, although he knew in his heart, as did her humane attorney, that her chance of again appearing before a bar of justice was very faint. Her possessions were few, most prized among them being a tiny handkerchief sent her by her little daughter as a Christmas gift. The child is being tenderly cared for at Tawas City, Mich. Infant kisses in the mystic character so readily understood by those to whom they are meant accompanied the gift and letter inclosed.

Something for the New Year.

The world's renowned success of Hostetter's Stomach Bitters, and their continued popularity for over a third of a century as a stomachic, is scarcely more wonderful than the welcome that greets the annual appearance of Hostetter's Almanac. This valuable medical treatise is published by the Hostetter Company, Pittsburg, Pa., under their own immediate supervision, employing 60 hands in that department. They are running about 11 months in the year on this work, and the issue of the same for 1891 will be more than ten millions, printed in English, German, French, Welsh, Norwegian, Swedish, Holland, Bohemian and Spanish languages. Refer to a copy of it for valuable and interesting reading concerning health, and numerous testimonials as to the efficacy of Hostetter's Stomach Bitters, amusement, varied information, astronomical calculations and chronological items, &c., which can be depended on for correctness. The Almanac for 1891 can be obtained free of cost, from druggists and general country dealers in all parts of the country.

The proprietors of Ely's Cream Balm do not claim it to be a cure-all, but a sure remedy for catarrh, colds in the head and hay fever. It is not a liquid or a snuff, but is easily applied into the nostrils. It gives relief at once.

MADE BY SPECIAL PROCESS--THE BEST.

Cocoa is of supreme importance as an article of diet. Van Houten's has *fifty per cent.* more flesh-forming properties than exist in the best of other cocoas.

VAN HOUTEN'S COCOA

"BEST & GOES FARTHEST."

The tissue of the cocoa bean is so softened as to render it easy of digestion, and, at the same time, the aroma is highly developed.

VAN HOUTEN'S COCOA ("once tried, always used") is the original, pure, soluble Cocoa, invented, patented and made in Holland, and is to-day better and more soluble than any of the numerous imitations. In fact, a comparative test will easily prove, that no other Cocoa equals this Inventor's in solubility, agreeable taste and nutritive qualities. "Largest sale in the world." Ask for VAN HOUTEN'S and take no other.

FOR CHRISTMAS AND NEW YEARS.

FRUIT HOUSE PRICES.

In many instances there has been little change in prices, especially in staple goods. The sugar market has been steady, the clique who has had hold of it being afraid to advance prices. In consequence of the tariff agitation this was not so last year where in one instance inside of 28 days they sent prices up over 3c. per pound.

Coffee A. Standard, 6½c. Coffee C. Extra Yellow, 6c.
Granulated, Crushed and Powdered, 7c.

The Tea market in second grades has been much higher; these qualities have advanced over 5c. In the first qualities there has been no change; fortunately we had a large supply before the advance which enabled us to continue to sell to our customers at old prices. Our motto in dealing in Teas, like other goods, is to buy in large quantities and we sell direct to the consumer, thereby saving to our customers the profits of the jobber and speculator, which is not less than 10 and 20c. on the pound. This is the secret in the success of our Tea trade trade-large sales and small profits.

Young Hyson Tea, good, 20c.; choice, 30c.; best, 50c. lb.
Imperial Tea, extra, 30c; best, 50c lb.
Gunpowder Tea, extra, 30c. lb; best, 50c lb.
Oolong or Black Tea, extra, 25c.; best, 50c. lb.
Japan Tea Uncolored, choice, 30c; best, 50c lb.

COFFEE, COFFEE--Rio, Mocha, Java and Roasted Coffee.

There are indications of a great decline in coffee the next two months as receipts in Rio and Santos are very large, and this being shipped to New York will compel the clique who has had hold of the market to let go, and in consequence the market will go down: Prices remain as last quoted:

Best Rio Coffee, 23c. lb. Choice Old Govt. Java, 28c. lb.
Best Green Mocha, 30c. lb. Best Roasted Rio, 25c. lb.
Best Roasted Java, 35c. lb. Best Roasted Mocha, 35c. lb.
Sampson Brand in Packages, 26c. Jersey Coffee in Packages, 26c.
Durham Coffee in Packages, 26c. Levering's Coffee, 26c. lb.
Cordava Coffee 1 lb. pack 26c.

The Christmas trade in toys and presents promises to be large this season, and in consequence of such a demand we have laid in an immense supply of all kinds of toys and fancy goods suitable for presents for old and young. They are too numerous to mention them in detail, but we have dolls of all kinds and sizes from the 1c doll up to the $1.20 dressed doll. Fancy plush albums, very nice presents they make, and always acceptable, from 75c up to $2.50, and 75c and $1.00 albums are an exceedingly great bargain. Then we have tin toys, iron toys, musha toys, such as lions, birds, dogs, cats, tigers, elephants, chickens, Noah's arks, block houses, games, picture books, dulcimers, violins, toy guns, toy pistols and Christmas trees, candies and Christmas tree ornaments of every variety, and some very beautiful ones from 1c up to 50c each. The Christmas tree candles in one pound boxes, 15c box.

FOR CHRISTMAS AND NEW YEARS CAKES.

Leghorn citron, 20c. lb. Lemon and orange peel, 18c. lb. Shelled almonds 35c. lb. Zantee currants, 5c. lb. Valencia raisins, 8c. lb. Layer raisins 15c. lb. Seedless raisins, 10c. lb. California raisins, muscatells, 15c. lb.

CANDIES AND NUTS FOR CHRISTMAS AND NEW YEARS.

The low price of sugar has caused a decline of 2c. lb on candy. Best Pure Stick Candy, 10c lb. French Mixed Candy. 10c. Fancy Bon Bons, 15c lb. Imperials, 15c. Chocolate 15c. Toy candies for Christmas decorations and children's presents, 20c. lb. Fancy animals and birds in candy toys in every variety from 1c. each up to 15c. each. Nuts, Brazil, English Walnuts, Soft Shelled Almonds, Filberts and Peacans, 12½c to 20c quart.

CALIFORNIA FRUITS, CANNED AND DRIED.

Our home market on fruits is so large this season that California fruits are in great demand. Besides, they are most desirable goods. Our California goods we purchased before the advance, hence our customers will have the advantage.

California 3 lb. can Peaches, 30c can; California 3 lb. can Pears, 30c can; California Green Gages, 3 lb. cans, 20c can; California Egg Plums, 3 lb. can, 20c can; California 3 lb. cans, Apricots, 20c. can; Dried California Nectarines, Pealed Peaches, Silver Prunes, California Dried Apricots, 17 to 30c. lb.

A SCIENTIST announces that the size of the head is no indication of the extent of brain-power. Brain surface is the measure of intelligence, and the surface is great or small according to the depth of the convolutions or creases. A man with a small head may have a brain so folding upon itself that it will be of vast extent, while one with a big head by superficial measurement may have the gray matter that enwraps his mind of such shallow convolutions that the mind will be of narrow scope.

ALMOST AN ACCIDENT.

Miss Anna Ruppel Has a Frightful Experience on a Railroad Crossing.

Miss Anna Ruppel, an operator in the works of the Hoosier manufacturing company, had a narrow escape from what might have been a terrible accident yesterday morning, while going to her work. She was passing the crossing of the Wabash road at the intersection of Fairfield avenue, when the ice on the boards caused her to slip and fall. The limited passenger train on the Wabash road was approaching rapidly, and in her attempt to rise she fell again; but regained her feet and stepped from the track just as the train dashed by. The young lady was badly frightened but escaped uninjured.

"Up with your hands!" said the robber, firmly. The young man stopped in an instant, when he saw a revolver leveled at him and only a few feet away from his head. "Your money!" demanded the ruffian, and just as he was preparing to search him, Mr. Fry hallowed to a man whom he saw a square away. This frightened the robber and he immediately fled, without having obtained anything of value from Mr. Fry.

OFFICERS CHOSEN.

By the Baptist Congregation at Their Annual Meeting.

Last evening in the Baptist church lecture room occurred the annual business meeting of this flourishing congregation. Some four thousand dollars has been raised this year for current expenses and missionary enterprises. There were seventy-five added to the membership during the year. At present the auditorium, even after enlargement, is incapable of accommodating the throngs who attend upon the evening services.

The following officers were elected: Trustees, F. C. Crateley, John Slater, H. T. Mills, O. N. Heaton, and A. Z. Polhamus. W. A. Ross was re-elected Sunday school superintendent. Benjamin Rousseau was selected unanimously for clerk, and J. W. Wells for the fourth term as treasurer. The meeting and reports of the officers were highly satisfactory and the outlook for the coming year for this congregation is exceedingly flattering. The week of prayer will begin next Monday evening continuing all the week and will then be followed by the usual gospel meetings under the leadership and preaching of the pastor.

Remarkable Rescue.

Mrs. Michael Curtain, Plainfield, Ill., makes the statement that she caught cold, which settled on her lungs; she was treated for a month by her family physician, but grew worse. She bought a bottle, and to her delight found herself benefited from first dose. She continued its use, and after taking ten bottles, found herself sound and well, now does her own housework and is as well as she ever was.—Free trial bottles of this Great Discovery at Dreier Bros.' drug store, large bottles 50c. and $1.00.
